### **Job Summary:**

This position is located within the Office of Naval Intelligence, Farragut Technical Analysis Center. The incumbent will fill an All-Source, Scientific and Technical Intelligence (S&TI) analyst position within one of six departments within the command. Farragut provides the highest quality strategic and S&TI analysis of foreign naval capabilities. Essential information and services are provided to a broad range of consumers including Navy acquisition managers, weap-ons and systems developers, operational forces, and national security policy-makers. The incumbent will apply analytic expertise, initiative, creativity, critical thinking, and strong communication and interpersonal skills on a daily basis to solve complex intelligence problems and drive intelligence collection efforts.

### **Specific Duties:**

- Produce technical intelligence assessments on a wide variety of areas including, but not limited to: technologies, sensors, weapons, platforms, combat systems, C4ISR, and cyber capabilities.
- Develop/validate standing collection requirements, collection support briefs, and support command-validated requirements in alignment with Research and Analysis Plan priorities
- Respond to ad hoc requirements and provide formal feedback through official reporting channels
- Build, operate, and maintain a variety of technical intelligence data analysis tools and technical databases
- Sustain and create outreach and relationship-building efforts with both Navy and Intelligence Community (IC) counterparts
- Monitor collection results for accuracy/completeness in response to standing
- Conduct technical research, analysis and production on adversary naval systems and capabilities.
- Utilize existing modeling and simulation tools to produce technical characterizations and assessments.
- Perform internal and external collaboration with an enterprise-wide focus.
- Maintain technical expertise in your field to apply to the most challenging intelligence problems of interest to the US Navy.

**Desired Minimum Qualifications/Ranking Factors:** Applicants will be evaluated based on the criteria identified below and must demonstrate at least 1 year of specialized experience equivalent to the next lower grade level in order to successfully perform the duties of the position:

## FARRAGUT TECHNICAL ANALYSIS CENTER

- Organizational skills with attention to detail
- Ability to communicate effectively in oral and written form
- Research and analytic skills with the ability to publish intelligence products in a timely manner
- Ability to be a self-starter and be highly motivated to seek out solutions to complex problems
- Ability to coordinate and collaborate with analysts throughout the IC to develop consensus on broader strategic and operational trends.

### **Conditions of Employment:**

- You must be a U.S. Citizen
- Males must be registered or exempt from Selective Service ([www.sss.gov](http://www.sss.gov))
- Selectee must be determined suitable for federal employment
- Selectee may be required to successfully complete a trial period
- Selectee is required to participate in the direct deposit pay program
- Selectee may be required to successfully complete a polygraph examination

In addition, individuals must meet Individual Occupational Requirements for the series/grade selected as identified within the Office of Personnel Management qualification standards. For further details on the specific occupational series requirements, please click the link below: <https://www.opm.gov/policy-data-oversight/classification-qualifications/general-schedule-qualification-standards/#url=List-by-Occupational-Series>

### **How to Apply:**

1. Email your resume to [navyinteljobs@navy.mil](mailto:navyinteljobs@navy.mil), including the full job title and assignment number in the email subject line
2. Resume must be submitted by 11:59 pm Eastern Standard Time (EST) on the closing date
3. For additional information please email [navyinteljobs@navy.mil](mailto:navyinteljobs@navy.mil)
